

Please supply the following information for your facilities so that we can draw up an accurate quotation:

conveyed material max. grain dimension mm mm mm

Granularity:

ground granulated crushed

Grain size:

uniform irregular sieved

Properties:

abrasive aggressive viscous bulk density kg/m³

moisture content % temperature °C loose (not forming arches) forming arches

Quantity conveyed:

per hour kg per day kg per year tonnes

Conveying distribution:

continual broken

Hours of operation:

per day hour per month hour

Required environment with potentially of explode according the ATEX 137 (if left blank will be considered "no")

Yes No

Certificate for food:

Yes No

Conveyor made of:

steel stainless plastic (only for type SL)

Please draw a dimensioned sketch of the conveyor route:
